Dear Mr. Garrison

It is so long since I returned to you your letter to us containing criticisms of Mr. Pillsbury, that I fear you have forgotten my request that you should return it, even though you should not consent to its publication. If it is not lost will you have the kindness to return it, as I desire to keep it. I think it will be invaluable as a testimony to the right, which I can read to those who have been swept away from the post of principle by the tidal wave of the present Administration.

Yours very truly

A. C. Foster
